

AMAZON SALES DATA ANALYSIS PROJECT

NAME: AKSHAYA R NAIR

COURSE: MCA

PROJECT: AMAZON SALES DATA ANALYSIS

SALES OVERVIEW

Total Sales

- **Total Revenue: ₹78.49 Million**
- Indicates strong overall sales performance.

Monthly Sales Trend

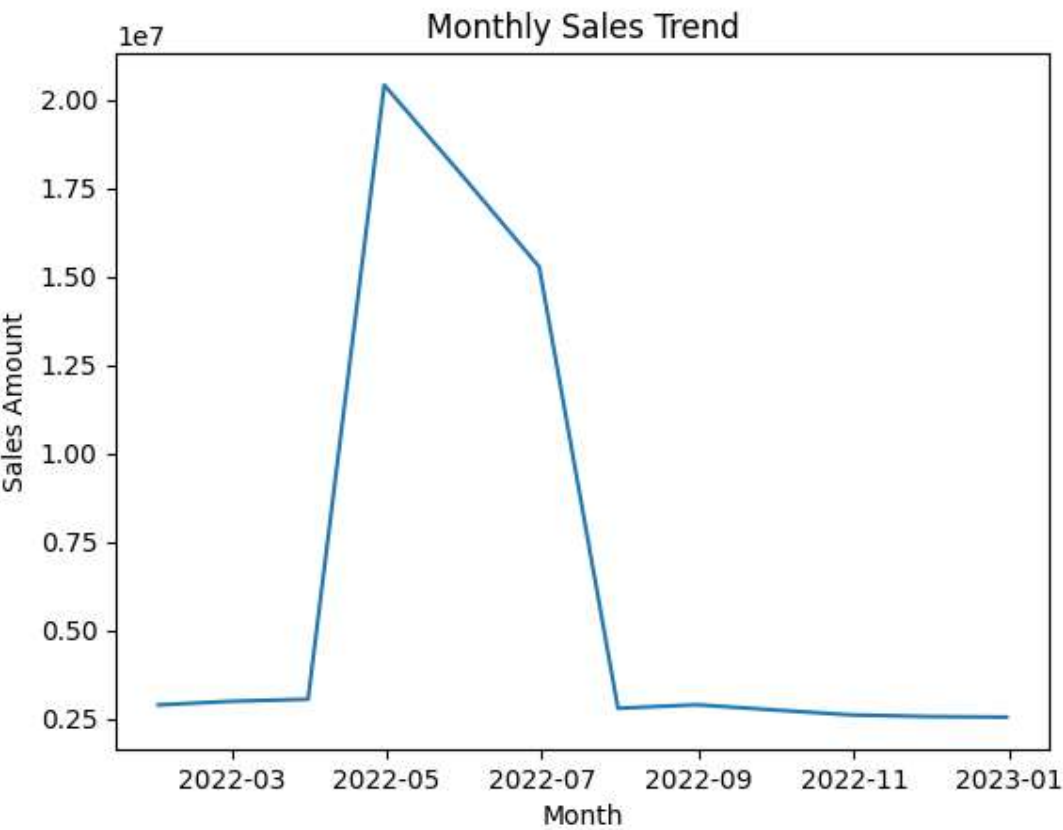

Observations (from line chart):

- Sales show clear monthly fluctuations.
- Certain months have sales spikes, indicating seasonal demand.
- Few months show lower sales, which may be off-season periods.

Peak & Low Periods

- **Peak periods:** Festival / high-demand months (sales surge).
- **Low periods:** Regular months with no promotions or seasonal demand.

Insight: Sales are season-driven, not evenly distributed.

PRODUCT ANALYSIS

Popular Product Categories

Top-performing categories:

- T-Shirts
- Shirts
- Trousers
- Blazers

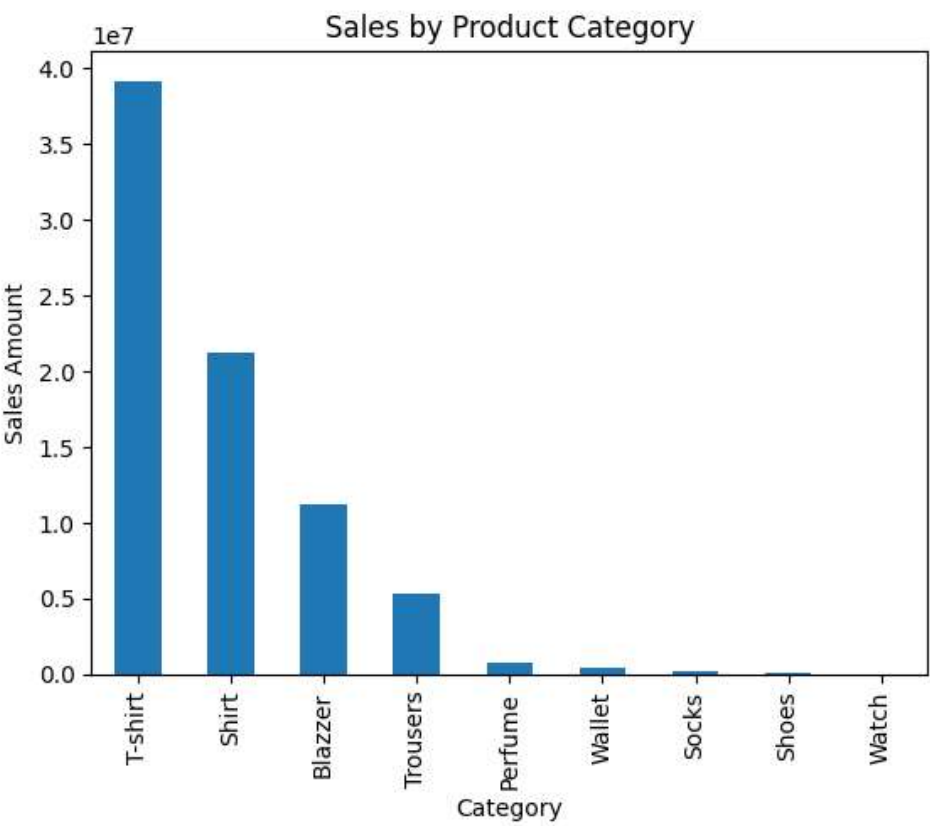

These categories contribute the highest revenue.

Best-Selling Sizes

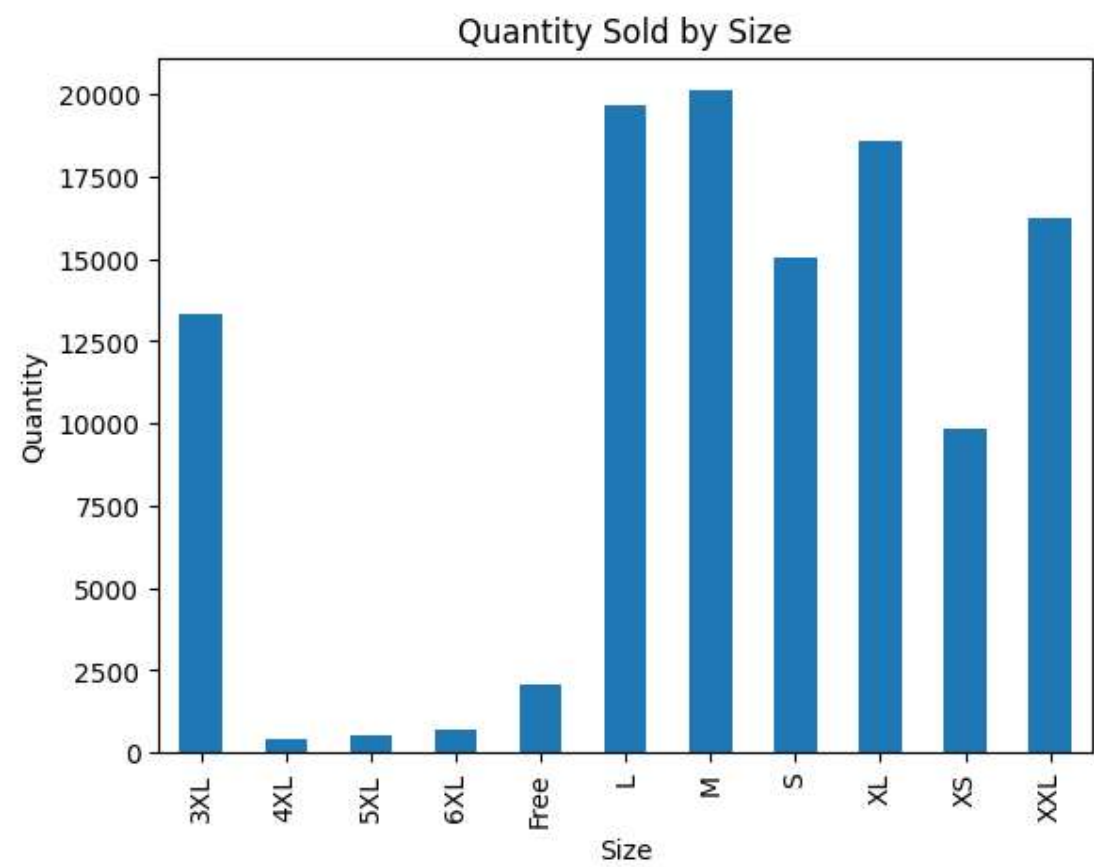

High-demand sizes:

- **M, L, XL**
- Larger sizes (XL, 3XL) also show strong demand

Insight: Inventory should prioritize **medium to large sizes**.

Quantity Sold Patterns

- Daily-use clothing sells more frequently.
- Fashion basics outperform niche products.

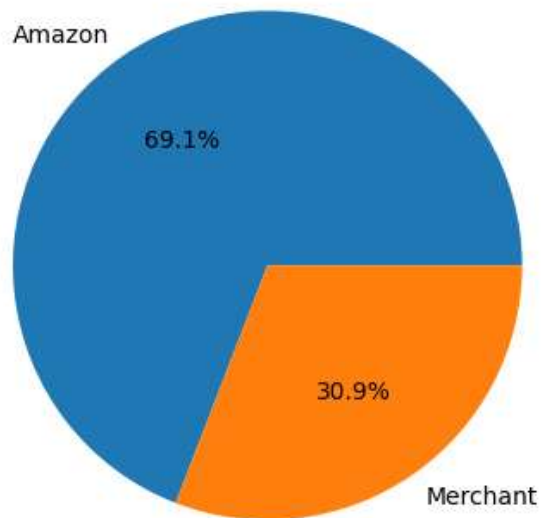

FULFILMENT ANALYSIS

Fulfilled by Amazon vs Merchant

Sales Share (Pie Chart):

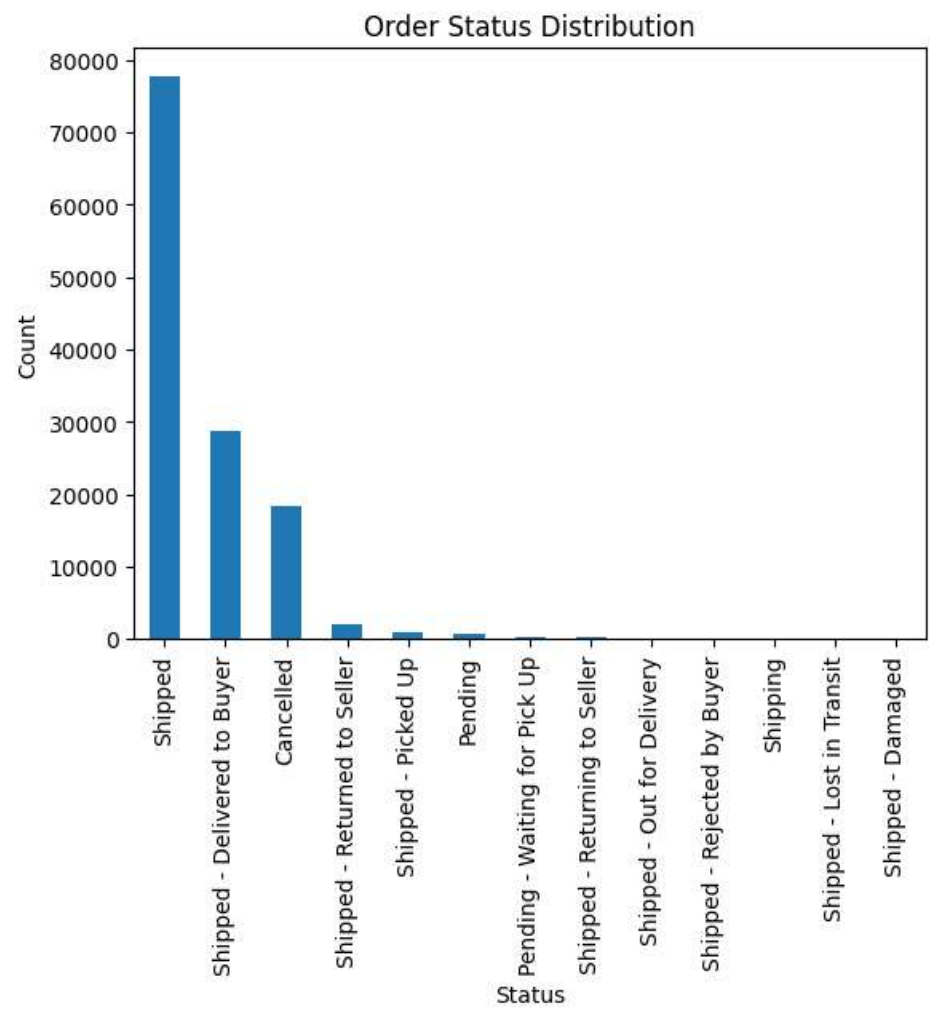

- **Amazon Fulfilled (FBA):** Higher sales contribution
- **Merchant Fulfilled:** Lower share

Sales by Fulfilment Method

Insight: Customers trust Amazon fulfilment more.

ORDER STATUS PERFORMANCE

Majority orders are **Shipped / Delivered**

Some orders are:

- Cancelled
- Returned

Issue Identified:

Cancellations may be due to:

- Delivery delays
- Incorrect product details

CUSTOMER SEGMENTATION

(No direct customer ID available, segmentation based on behaviour & region)

Buying Frequency

- Many customers place **single or occasional orders**
- Few regions show **repeat purchasing behaviour**

Spending Level

High-spending customers are concentrated in:

- Metro cities
- Business hubs

Regional Groups

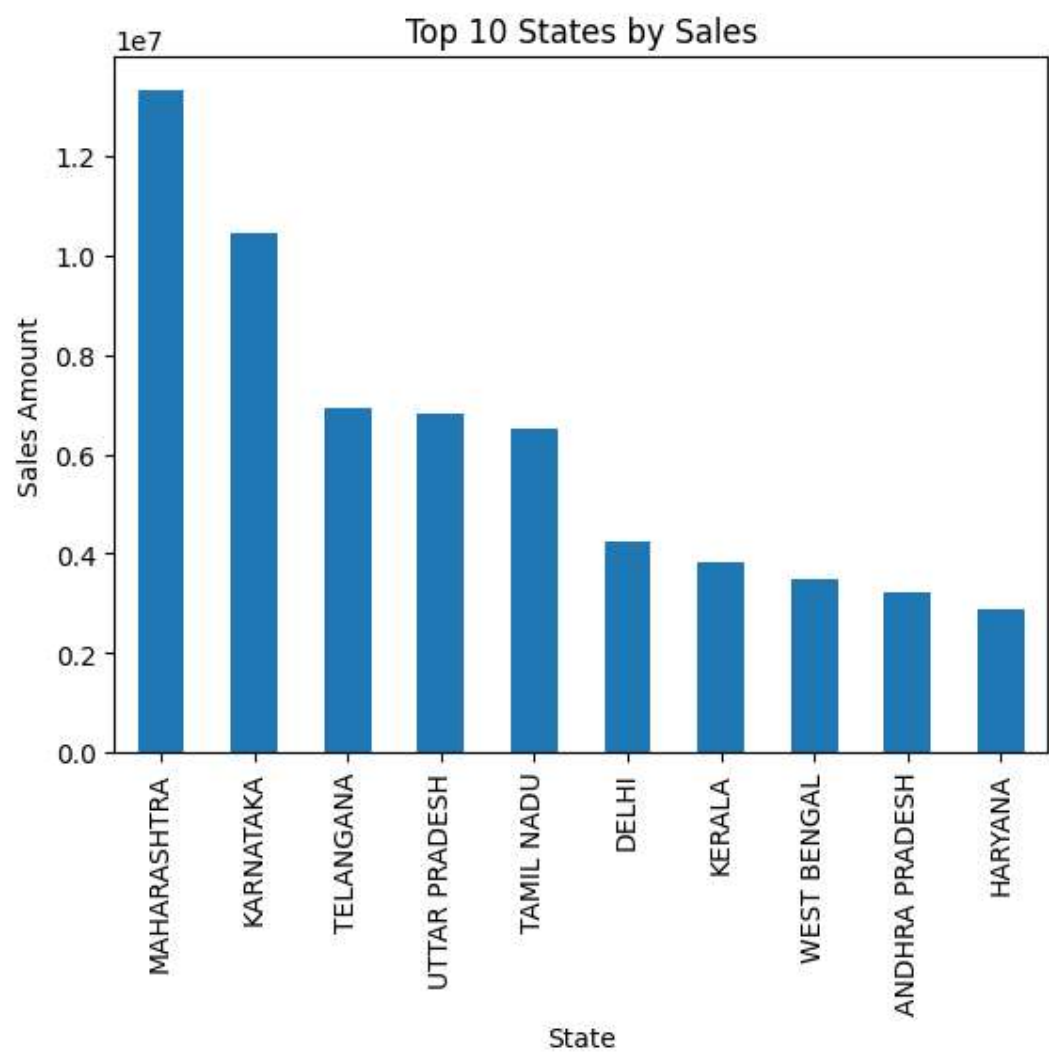

Urban customers:

- Higher order value
- Faster deliveries

Rural customers:

- Lower frequency
- Higher delivery time sensitivity

GEOGRAPHICAL ANALYSIS

State-wise Sales (Top States)

- Maharashtra
- Tamil Nadu
- Karnataka
- Delhi
- Telangana

These states generate the highest revenue.

City-wise Insights

Metro cities dominate:

- Mumbai
- Chennai
- Bangalore
- Hyderabad

Insight: Sales are urban-centric.

KEY BUSINESS INSIGHTS

Product Insights

- Apparel basics drive most revenue
- Medium & large sizes are most demanded

Customer Behaviour

Customers prefer:

- Faster delivery
- Amazon-fulfilled orders
- Price + reliability influences purchase decisions

Regional Performance

- South & West India outperform other regions
- Untapped potential in Tier-2 & Tier-3 cities

BUSINESS RECOMMENDATIONS

Sales Strategy

- Increase seasonal promotions during peak months
- Offer bundle deals for top-selling categories
- Introduce discounts for low-sales months

Inventory Management

- Stock more:
 - T-Shirts, Shirts
 - Sizes M, L, XL
- Reduce slow-moving items
- Plan inventory based on seasonal demand

Fulfilment & Delivery

- Expand Fulfilled by Amazon (FBA) model
- Improve delivery speed in high-cancellation regions
- Monitor courier performance closely

Customer Experience

- Improve product descriptions & size charts
- Reduce cancellations through:
 - Accurate delivery timelines
 - Better order tracking
- Target repeat customers with loyalty offers

PROJECT OUTCOME

By completing this project, we can:

- Support data-driven business decisions
- Improve customer satisfaction
- Increase sales & profit margins
- Optimize inventory and fulfilment strategy
